

# 2025 PSC ELECTION 101

## WHAT IS THE PUBLIC SERVICE COMMISSION (PSC)?

The Georgia PSC regulates essential utilities, including electricity, natural gas, and telecommunications. It ensures that services are safe, reliable, and reasonably priced for consumers across the state.

Due to legal challenges, elections for PSC Districts 2 and 3 were postponed. These seats are now up for a special election in 2025, providing voters with the opportunity to influence decisions on utility rates and infrastructure projects.

Although each PSC commissioner must reside in a specific district, they are elected by voters across the entire state.
